

ALLIES PREPARING TO INVADE GERMANY TO ENFORCE TREATY

Military Heads of France and England Confer on Manner of Occupation if Necessary

German Delegates Reported Changing Attitude from Bluff to Alarm

Resumption of war on Germany, unless she signs the protocol providing enforcement of the peace treaty, was indicated in a dispatch from allied capitals today.

The Paris cabinet said Britain and French military commanders as a result of a conference yesterday were prepared to invade Germany in event of definite refusal to sign the protocol. Paris believes a virtual ultimatum to be dispatched to Berlin within forty-eight hours according to London. Field Marshal Wilson, the British representative at a conference had offered cooperation of the British fleet should force be employed against Germany. A special meeting of the British cabinet was called today to consider Wilson's report.

A report of the state department to Washington said 12,000 American troops were now in the Rhine district which would be available for use by Foch in event hostilities were resumed.

Berlin reports that if the allies insist on the signing of the protocol it probably would result in reorganization of the German ministry. Even a reorganized cabinet it was said might not consent to sign the protocol under conditions at present.

By HENRY WOOD
(United Press Staff Correspondent.)

Paris, Dec. 6.—The Allies today were preparing to start a new triple invasion of Germany if she refuses to sign the protocol to the peace treaty in the opinion of well informed persons here.

Press and public alike were confident that a virtual ultimatum would be dispatched to the German government within forty-eight hours. Preparations for a decisive military blow already is well under way. Under the armistice terms the allies can denounce that agreement upon three days' notice re-establishing the state of war.

It was learned authoritatively, however, that they will probably give Germany another chance to sign the protocol, and agree to the execution of the treaty before denouncing the armistice.

Owing to Germany's attitude the

French government is considering the mobilization of all aviation sections as well as recalling in younger classes of demobilized infantry. It was rumored today. If further occupation of Germany is necessary these as well as other preparations will be taken soon, it was stated.

Following a conference between Field Marshal Wilson of Great Britain and Marshal Foch of France, military plans to enforce the terms of the armistice have been completed. These substantially are the same as those made last June when it was uncertain whether Germany would accept the treaty of Versailles it was learned.

Foch at that time prepared a triple plan of invasion of Germany by Belgium, and the British by way of Essen and Muesler; American and French troops will enter from Frankfurt and up the valley of the Main completely separating northern and southern Germany, and by French armies in Lorraine toward Ulm.

Dispatch from Germany announcing a heavy movement of allied troops indicating the allies are settling their forces for the drive should the situation demand it. In the meantime the attitude of the German delegation in Paris headed by Baron Kurt Von Lersner has changed from one of bluff to one of alarm.

12,000 American Troops Available For German Invasion

HUGH BAILLIE,
(Written for the United Press)
Washington, Dec. 6.—12,000 American troops now along the Rhine could be used by Marshal Foch if the allies advance further into German territory to enforce the signing of the protocol by the Berlin government. It was declared today by the state department. Under the terms of the armistice and the arrangements made in connection with it, Marshal Foch can command that according to the department.

By CARL D. GROAT
(United Press Staff Correspondent.)
Berlin, Dec. 6.—The French will reinforce their Rhine garrison the Abend Zeitung declared today. Several thousand additional troops have arrived at Meyence and Ludwigshafen the paper said.

Reorganization of the German cabinet, if the allies insist upon enforcement of the terms of the protocol, was considered probable here today.

tion of the protocol requiring Germany to surrender certain docks and shipping in return for the sinking at the Scapa Flow is enforced it was said.

Whether a reorganized cabinet will accept the protocol was not known. Germany flatly denies her government was responsible for Admiral Von Reuter's action in scuttling his ships and looks upon the allied demand for surrender of the docks and merchant ships as "robbery."

France's failure to release German war prisoners also has aroused the greatest indignation.

The British government has in its possession a letter found on the German cruiser Emden of the Scapa Flow fleet, showing Von Reuter was in touch with the government at the time he issued the order for the sinking. It was stated semi-officially today. The Reuter letter as quoted by the British government, was based on the theory that the ships were interned and had been delivered to the allies.

Supreme Council Sends Note

Paris, Dec. 6.—The supreme council in a secret session today unanimously approved the text of a note to be sent to Germany on the provision for making effective the peace treaty. While the note has not yet been made public it was understood to be virtually an ultimatum.

Military Training Not in Army Bill

(By United Press)
Washington, Dec. 6.—Universal military training should not be included in the army reorganization bill in the opinion of the house military affairs committee, Acting Chairman Anthony declared today.

No vote was taken it was learned but previous polls of the committee showed only seven out of twenty-five favoring the plan.

The action was taken while Chairman Kahn, strong advocate of military training, was in California, and he is expected to change this feature. The committee previously decided peace time strength of the army should be 297,000 and framed the reorganization bill by amending the national defense act of June 3, 1916.

Mexican Situation up to President

He Will Advise Cabinet of His Attitude on Fall Resolution Asking Severance of Relations

By L. C. MARTIN
(United Press Staff Correspondent)

Washington, Dec. 6.—Senator Fall and his supporters suggested today that they insist on passage of the resolution directing the president to sever diplomatic relations with Mexico despite the release of Jenkins, American consular agent, imprisoned at Pueblo.

Senator Fall emphasized this resolution as based on a series of alleged indignities to America's honor, the latest of which is the printing of bolshevik propaganda in this country by Mexican agents.

The foreign relations committee will not act on Senator Fall's severance of military relations until President Wilson has sent to the cabinet a memorandum expressing his view on the matter. He told Senators Fall and Hitchcock at the White House yesterday he would have this before the committee Monday.

It was generally expected today Wilson will advise against adoption of the Fall resolution at this time. Administration senators, headed by Senator Hitchcock, today expected the President to tell the committee that the state department will not abandon its vigorous efforts to bring complete and satisfactory settlement of the whole Mexico question, and that too drastic action by congress may defeat government plans.

The President today had before him the Fall memorandum on conditions along the border and on the alleged Mexican-backed propaganda. Reports from Mexico City, declaring Jenkins was not given absolute freedom, but merely bailed out, had no official confirmation. The state department said today they thought he had been given absolute liberty. It was intimated if he had been merely released on bail the situation would still be grave. Jenkins had been advised not to accept bail.

Serbia Will Resist Occupation of Dalmatia

(By United Press)

Paris, Dec. 6.—The Serbian delegation today has notified the peace conference it has learned Gabrielle D'Annunzio has prepared to occupy Spalato, Cattaro and Laibach. The Belgrade government had ordered the Serbian armies to prevent such an attempt by armed resistance the delegation said.

Nine Millions More Will be Needed to Pay Soldier's Bonus

But Governor Will Not Call Extra Session to Provide This Amount Until Court Passes on Constitutionality

(By United Press)

St. Paul, Dec. 6.—Governor Burnquist will wait for the decision of the circuit court on the constitutionality of the state bonus law before deciding whether another special session of the legislature will be necessary to amend the law.

The governor was advised today that the \$20,000,000 provided under the present law would be insufficient to pay all of the claims based on the average amount asked and about five thousand claims tabulated so far by the board. The board believes at least \$9,000,000 more will be necessary if all claims are to be paid.

THREE BURN TO DEATH

Ten Others Seriously Injured in Iowa Rail Wreck

Muscatine, Iowa, Dec. 5.—Three persons were burned to death and ten or more seriously injured when a motor car on the Muscatine, Burlington & Southern railway caught fire yesterday after it was derailed two miles from here.

One body was identified as Mrs. James Buster of Grand View. Two other victims were charred beyond recognition.

The seriously injured are: Mrs. James Guthrie of Wapello, severely burned about the head and shoulders; Howard K. Hy, Wapello, badly burned, arm severed by glass; Ike Stineman, Grand View, burned; J. Montague, travelling man, burned.

Seven others were removed to the hospital, but their injuries are not serious.

URGES END OF WAR

House Member Introduces Bill Declaring Hostilities Over

Washington, Dec. 5.—A joint resolution declaring the war with Germany "at an end" was introduced yesterday by Representative Tinkham, Republican, of Massachusetts. He indicated he had acted at the suggestions of Republican leaders in the Senate and said he would ask early consideration by the foreign affairs committee.

House leaders said they had no plans for action on the resolution.

Shipment of Coal to Chicago From Lakes is Halted

(By United Press)

St. Paul, Dec. 6.—The northwest coal supply on the docks at Duluth will be held there for consumption by northwest consumers. Shipping of coal from the head of the lakes to other sections was halted this morning by order of the Chicago regional fuel committee.

Chicago has been getting from 2,000 to 4,000 tons daily from Duluth. At the same time orders were issued by the railroad administration cancelling thirty-two trains entering and leaving St. Paul daily effective midnight Sunday. This is about a third of the trains now operating through St. Paul.

Grand Jury Begins Probe Mining Operators

(By United Press)

Washington, Dec. 6.—The federal grand jury in its probe of activities of coal mine operators and their employees, will cover the entire country, and will extend throughout the period of the war, according to District Attorney Slack today.

He said the grand jury may sit in session for two months, or maybe more than a year, inasmuch as its probe will be so extensive. All evidence of the department of justice has been laid before it. The jury convened at 10 A. M. today.

Savages Use Tooth Brushes.
The manufacturer of a popular den-
tal powder advertises that "Savages
lead a different kind of life from us,
and therefore nature takes care of
their teeth without artificial help."
Wellerburn, the wanderer in remote
places, saw this and laughed. "I know
of at least three African tribes," he
said, "that brush their teeth regularly.
Each person carries a twig of a certain
fibrous tree. They chew the end of it
into a good bunch of bristles, and
spend a quarter-hour each morning
cleaning their teeth thoroughly. They
tie a string to the twig and dangle it
from the waist cord, if they have no
other clothes to fasten it on. It is an
important thing to them."

Green Always Harmonious.
The professional mixer of paints
knows that fierce color discord can-
easily be created by a misplacing of
green. But nature never misplaces it.
Even blue stands without tinge, cheek
by cheek with nature's greens. Lar-
spurs and lobellias go quietly arm in
arm with their respective foliage. Any
rose of any tint or color is best set
off by a green rose leaf. Every spring
or fall color, pale or florid, will shade
pleasantly into green on the very same
leaf.

WOMAN'S REALM

Boots or Anklets? Let Tootsies Choose

By MARGARET ROHE
(Written for the United Press)

What boots it if your ankle's fine
If you must go and boot it.
This is Dame Fashion's last decree
But there'll be lots who'll boot it.

New York, Dec. 6.—Incoming ships are bringing heaps of exciting things to our shores these days, besides royalties and bolsheviki. Not the least of these were worn by two dashing American matrons when they put their best foot foremost down the gangplanks the other day. One wore an alluring golden anklet that gleamed seductively through the transparent mesh of her gossamer silk hose and the other swaggered down in a dashing little pair of honest-to-goodness regular Russian ballet boots.

You can take your choice between these two divergent styles according to your temperament and the turn of your ankle. It always well to remember, however, that where there's a well turned ankle there's many a well turned head. And it does seem such a wicked waste of short skirts, sheer hosiery and slender shanks to go and drag boots on the scene.

Nevertheless there be many who are doing it—some because they follow zealously every vagary of the mode whether it means baring their backs or booting their tootsies, others (and naturally all bootee devotees rest under this suspicion) because their ankle lines, or rather humps, make boots the lesser of two evils.

There are lots of boot styles to choose from when it comes to color schemes and ornateness, though the general set of all the boots is about the same. All over patent kid ones are smart and those of patent kid lovers with light kid uppers, either grey beige or tan have designs of the

black patent kid on their turn over cuffs at their tops.

All grey or light tan boots of suede are softer and more form-fitting, as it were, and a few sport tassels, fur trimmings and even go the elaborate limit of a bit of hand toying here and there like an edition de luxe.

We have been threatened with this boot fad ere this but it didn't stick sufficiently to make a deep boot print on the sands of Fashion, or a deep impression on feminine favor. The very fact that the price of leather is so high now-a-days as to almost make these high boots prohibitive except to the most expensive and exclusive trade may put the stamp of approval on them now that they lacked when the hot polloi could afford to be booted with the best of them.

The high cost of booting makes rather for the anklet as a more popular foot adornment of the season, however, and especially does it go well with the oriental trouser effects so prevalent among our best skirts these days. The skirts puffed in around the hem do their worst to simulate haremlike effects and there is a return to this fashion of a season ago that bids fair to exceed even the success of its debut. In that wicked Paris more blatantly bifurcated garments have been flaunted in the face of convention and if this sort of thing keeps on and up lovely woman may be able to tuck her trousers in the tops of her boots like a regular wild-western fellow when she goes to cast her vote at the next Presidential election, by heck.

Miss Irene Quinn, daughter of Mr. and Mrs. E. J. Quinn of 616 North Sixth street, gave a studio party on Thursday evening which was attended by twenty couples of her young friends. The party was held in the Koop block. There was dancing and other amusements, the luncheon being served at the conclusion at the Quinn home.

BUDGETS MADE FOR PEOPLE OF NORTHWEST

In this report of budgets one wonders what family furnished the statistics or how they were compiled. If a man can only save \$1 a month, how many War Savings Stamps or Liberty Bonds can he purchase. No provision is made for house or life insurance.

Again in the \$100 income class, not a family in Brainerd can run a house on \$4.50 a month fuel. Under fuel one would have to consider light, electricity, gas, coal and wood.

Go over this list and write your experience to the Dispatch. The article in question is given in full below:

Working in connection with the home economics division of the University of Minnesota, in the Ninth federal reserve district, the savings division of the United States treasury department has prepared home budget forms for family costs based on prices prevailing in Minnesota. It is explained that while there is no entirely accurate rule by which the amount of expenditures or savings can be arrived at, and that while it is impossible to make budgets for given incomes which will exactly suit the needs of all families with such incomes, it is believed that the amounts suggested are reasonable estimates for the average family. Home budgets for families of four are posed as follows:

ON INCOME OF \$100 A MONTH

Savings	\$ 1.00
Food	45.00
Shelter, including heat, taxes, repairs	16.00
Fuel	4.50
Current expenses	15.00
Clothing	15.00
Advancement, church, charity, recreation, education	3.00
Miscellaneous	.50

ON INCOME OF \$150 A MONTH

Savings	\$ 8.00
Food	50.00
Shelter, rent, taxes, repairs	30.00
Fuel	7.00
Current expenses	25.00
Clothing	21.00
Advancement, church, charity, recreation, education	8.00
Miscellaneous	1.00

ON INCOME OF \$250 A MONTH

Savings	\$40.00
Food	60.00
Shelter, rent, taxes, repairs	40.00
Fuel	11.00
Current expenses	44.00
Clothing	35.00
Advancement, church, charity, recreation, education	17.75

Bonfire of Sermons.

A writer in the Sunday at Home asks the question: Do ministers ever burn their sermons? One of them, it appears, does, and has given his reasons for so doing, and here they are: "Because I did not propose to have my children burdened with my old sermons; because as a result of the war we are in a new day; because I propose to show my wife that there is a lot of 'preach' left in me yet; because I once read in Horace Bushnell that if all the personages of the country should burn down in a single night, consuming all the sermons of all the ministers, a great revival would sweep over the land!"

PLAIN QUESTIONS TO BRAINERD PEOPLE

Every Brainerd Reader Will Admit the Soundness of the Logic

Would Brainerd people recommend Doan's Kidney Pills as they do if the medicine were not reliable? Would they confirm their statements after years have elapsed if their experience did not show the remedy to be deserving of it? Statements like the following must carry conviction to the mind of every reader:

Wm. Bourquin, carpenter, 913 Seventh St., Brainerd, says: "Some time ago I was suffering from kidney and bladder complaint. The kidney secretions were too frequent. I had backache and pains through my sides. The trouble kept me from my work and gave me much annoyance. I used Doan's Kidney Pills and soon secured relief from the trouble. Now the aches and pains are gone." (Statement given October 28, 1913.)

On November 2, 1917, Mr. Bourquin said: "Colds sometimes disorder my kidneys but I can rely on Doan's Kidney Pills to relieve me. I have the same good words for Doan's as when I previously endorsed them."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Bourquin had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Saw Fleeing Kaiser on
His Knees Pleading With
Dutch Frontier Guard

Countess de Leiderkerke, chairman of the Belgian Purple Cross, now visiting in the United States, tells how she saw the fleeing ex-kaiser on his knees on the ground before a Dutch frontier officer begging to be saved from arrest. She brought with her the imperial standard which flew from William Hohenzollern's automobile for the last time as the emperor fled through the darkness of Spa to the frontier. It will be sold for the Belgian Relief Fund.

Faculty for Christian Extension

"Faculty" for "Christian Extension University" for Minnesota (Announced by Interchurch World Movement)

Minneapolis, Dec. 6.—The members of the "Faculty" for the State Training Conference for Minnesota which the Interchurch World Movement will hold at Minneapolis from December 15-17, were announced Wednesday by C. V. Allison, Interchurch field secretary for Minnesota, North and South Dakota with office in this city.

The, are:
F. W. Burnham, President United Christian Missionary Society; W. S. Abernethy, A. N. Ward, Chancellor, Kansas City University; A. McLean, Clergyman, Educator, Missionary; C. L. Mead.

This team of conference leaders last month attended a four day "normal school" course at Atlantic City. There are eleven other teams of six men each who will conduct similar conferences in the other States of the Union this month.

The relation of the churches to religious, social and economic questions of the day will be thoroughly discussed at the coming conferences. The "students", who will be leading clergymen, laymen and laywomen, from the counties of Minnesota, will in turn hold similar conferences for church leaders in their counties. It is expected that at least 10,000 Christian leaders and workers will have been recruited when the campaign is over.

How Bolsheviks Settle Strikes

(San Francisco Chronicle)
An effective means of settling strikes has been devised in Bolshevik Petrograd. Every workman who dares to strike becomes automatically a member of the bourgeoisie and as such goes before a firing squad, says a letter from that city written by a former Russian revolutionist. In the few factories that are open armed guards are posted everywhere to encourage the people to work. According to the letter, the Bolsheviks are compelled to use this method, even in the Putilov works, the cradle of the revolutionary movement. Such are the "benefits" Bolshevism has to offer the workman.

How About Russian.

Johnny had been home from school with a bad cold, and when he returned to his lessons he took his teacher a note from his mother, saying: "Johnny is well enough now to do his work, but please keep him out of the French class; he still has a sore throat and even English hurts him."—Boston Post.

A MUCH NEEDED MEASURE

Representative Davy has introduced into the house of representatives, at the request of Attorney General Palmer, a bill which makes addition a crime punishable by twenty years imprisonment, and deportation in the case of foreigners, and de-naturalization of naturalized citizens and deportation.

The preaching of anarchy or destruction or overthrow of our government by force, or advocating of violence against an officer of the government, by word of mouth or by written word, picture or sign is defined as sedition.

Many authorities contend the government now has ample power to proceed against offenders of this character, but if there is any question the Davy bill should be passed and made into law at once. It is the crying need of the hour that all who advocate the destruction of the best government yet devised by man, should be summarily disposed of.

Probably 90 per cent of those who preach such a doctrine are foreigners who never enjoyed a moment of liberty before they came to this country. They should be denied the blessings of a free government and be returned from whence they came.

It should be the first duty of congress to enact the Davy bill into law.

AN OLD FAMILIAR MELODRAMA

(Chicago Tribune)

There was an old melodrama called, we believe, "Nellie the Beautiful Cloak Model." In the first act the villain threw her in front of a moving train. In the second he threw her off Brooklyn bridge. In the third he threw her off a steamer in New York bay. In the fourth he locked her in a room and set fire to the building—some such sequence of attentions. In the fifth he inquired: "Why do you distrust me, Nellie?"

Governor Cabrera of the Mexican state of Puebla, where Consul Jenkins is imprisoned, reminds us of this attentive gentle man. He explains the case and it causes us to feel a degree of shame for Jenkins. The poor fish, why does he distrust the Mexicans? What are we complaining about?

In the first act he was held up and robbed. In the second act he was taken to the consulate and made to surrender his own and the United States funds there. In the third he was kidnapped and held for ransom. In the fourth he was jailed by the Puebla authorities because his life had been bought by his friends. In the fifth, Governor Cabrera wants to know why Mr. Jenkins distrusts them and what we Americans are kicking about. The Mexicans have been

showing these little attentions to Mr. Jenkins because they love him.

VOTE

Every voter, interested in the city of Brainerd, should remember that his vote is needed to pass the proposed amendment to the city charter on Monday next. It requires 50 per cent of all votes cast to amend the charter.

The labor interests of our city have officially endorsed the amendment and the business interests have done likewise. Yet the amendment will be lost unless there is a good heavy vote.

Every citizen should remember that Brainerd must have his "Yes" expressed in the shape of a ballot to keep it a first class city and a representative Minnesota city.

CONVERTING BONDS

First Liberty Loan Converted 4 Per Cent for Conversion Into 4 1/4 Per Cent Bonds

Banks of the city have received this communication from the Federal Reserve bank of Minneapolis regarding the conversion of certain converted bonds:

"By reason of the fact that the First Liberty Loan 4 1/4 per cent converted permanent bonds with all un-matured interest coupons attached will not be available for delivery until about March 15, 1920, this bank, until further notice, will not accept for conversion into 4 1/4 per cent coupon bonds any First Liberty Loan converted 4 per cent registered or coupon bonds that may be presented for that purpose after the close of business Dec. 14. Should any such 4 per cent bonds be presented for conversion after that date, they will be held in suspense until the permanent bonds are ready for delivery.

"As soon as this bank receives a stock of the permanent First Liberty Loan 4 1/4 per cent converted coupon bonds, all banks and trust companies of this district will be notified, and at that time conversions will be resumed of First Liberty Loan 4 per cent registered or coupon bonds into 4 1/4 per cent converted coupon bonds, the deliveries upon conversions to be of permanent bonds thus combining the two operations of conversion and exchange.

"Until further advised, therefore, please do not forward any First Liberty Loan converted 4 per cent registered or coupon bonds for conversion into 4 1/4 per cent converted coupon bonds unless positive that they will reach this bank prior to the close of business Dec. 14."

KAISER HOOTS AT TRIAL

Former Emperor Refuses to Think About Court Action

London, Dec. 5.—Former Emperor William of Germany does not believe he will be brought to trial by the Allies, or if tried, that his future will be affected in any way, says the Berlin correspondent of the Daily Mail. Various friendly sources recently have suggested that he surrender to the Allies, offering to give the court all information in his power, the correspondent says, but he appears too lethargic to take any steps or even concentrate his mind upon the preparation of notes.

Next to sawing wood, the erstwhile monarch's main interest seems to be the various campaigns waged in Russia which he follows with the aid of large beflagged maps and he eagerly reads all the news from that country.

WHERE TO WORSHIP

WHY GO TO CHURCH

BY REV. E. A. COOKE,
 Pastor First Methodist Church.
 The WORD says: Not forsaking the assembling of ourselves together as the manner of some is.
 Why this exhortation? 1. Because religion is as much a part of our life as thinking, breathing or feeling. A man with his religious life undeveloped is not complete.
 2. The Christian religion expresses the highest conception of God or man within the range of human thought. We ought to possess it and express it in our lives.
 3. Unless we properly cultivate this worship it will die, first in ourselves, then in the nation then in the world. When it does God pity the world. Be at church Sunday in your rightful place of worship.

AMUSEMENTS

At the Best Tomorrow

Like the greatest of all his stage successes, "Get-Rich Quick Wallingford" is Hale Hamilton's new picture play, a peppery comedy-drama called "The Four Flusher" in which he will appear at the Best theatre tomorrow.

The role portrayed by the forceful young Metro star, that of Len Withers, a young New York clerk who puts on a big front in a daring bid for a big contract, is very similar to that made famous by him in the sensational stage success in which he was seen in all quarters of the globe. Different from either "After His Own Heart," "Five Thousand an Hour," or even "Full of Pep" is this newest vehicle of Hamilton's which is an original story written especially for him by Izola Forrester and Mann Page.

Period of Heavy Expenditure.

A period of twenty-five months, from April, 1917, through April, 1919, the war cost the United States considerably more than \$1,000,000,000 an hour. Treasury disbursements during the period reached a total of \$23,500,000,000, of which \$1,550,000,000 may be charged to the normal expenses which would have occurred in time of peace. The balance may be counted as the direct money cost of the war to the end of April, 1919, a sum of \$21,850,000,000. The figure is twenty times the prewar national debt. In addition to this huge expenditure, loans were advanced to the allies at the rate of nearly \$500,000 an hour. Congress authorized for this purpose \$10,000,000,000, and there was actually paid to various governments the sum of \$8,850,000,000.

Platinum From Alaska.

The output of platinum, palladium, and other metals of the platinum group in Alaska in 1918 is estimated at 284 fine ounces, valued at \$36,000, according to the United States geological survey, department of the interior.

Platinum was recovered from the gold placers of some districts in larger amounts and from some in smaller amounts than last year.

One of the most interesting events of the year in connection with Alaska mining is the recovery of substantial amounts of palladium and of some platinum from the copper ore of the Salt Chuck mine, near Ketchikan.

Proof.
 "Could you 'elp a pore feller, mum, wot's been invalided out o' the army with loss o' memory?"
 "I don't believe it; you came with quite another story last month."
 "Did I, mum? Well, yer can't want better proof than that, can yer?"
 "Rightly, London."

ITALY MAY GRAB FIUME

Reports Says Regular Army Will Occupy Territory

London, Dec. 5.—Italian regulars will occupy Fiume and the territory included in the treaty of London signed in 1915 by representatives of Italy, France, Great Britain and Russia, according to a Rome dispatch to the Exchange Telegraph company. D'Annunzio's volunteers will withdraw from Fiume. It is said, under the terms of an agreement reached as a result of negotiations between London and Paris.

BRAINERD TO FEEL LACK OF COAL PINCH

Minnesota & International Railway
Loses its Day Passenger Trains
Monday and Tuesday

ONLY NIGHT TRAINS ARE LEFT

Train Service in the Northwestern
Region of America to be Re-
duced Fully One-Third

On Monday and Tuesday Brainerd and vicinity will feel the pinch of the lack of coal by having train service reduced. By order of the regional director on account of coal shortage the passenger train service of the northwest will be reduced one-third.

Therefore effective Monday, December 8, Train 31 between Brainerd and Kelliher will be annulled and effective Tuesday, December 9, Train 32 between Kelliher and Brainerd will be annulled, on the M. & I. railway. Travel on that line will be reduced to night passenger trains. It further affects two train crews, largely Brainerd men.

No trains on the Northern Pacific railway in or out of Brainerd are affected.

This leaves on the Minnesota & International for passenger travel Train No. 11 which arrives at 12:10 A. M. from St. Paul and leaves up the M. & I. at 1 o'clock in the morning. Train 34, from M. & I. points north, will arrive in Brainerd at 3 A. M. and leave for St. Paul at 5:35 in the morning.

On the main line of the Northern Pacific No. 1 and 2, North Coast Limited, have been taken off.

Further news gleaned from a railway bulletin states: "The only passenger service the Minnesota & International railway will be able to render between Kelliher and the south will be on the tri-weekly freight train between North Bemidji and Kelliher, to which train a coach will be attached and which arrangement Mrs. Connelly will look after."

OFFERS SUGGESTION

Dispatch Reader Says "Chamber of Commerce Should Rent City Hall"

Ed. Dispatch:
It will be only a short time until the new depot will be finished and the M. & I. offices will be removed from the city hall to new quarters in the new depot.

The city will want a new tenant, or occupant for these rooms, which will be for rent.

As a citizen of Brainerd, I would like to see the Chamber of Commerce take up its future home in the city hall. It is in its nature, a quasi-public corporation, and should have the interest of all the people of this city at heart, and should have its headquarters in the civic center of the city, where the surroundings will always be the best.

On the other hand a Chamber of Commerce should not be farmed out by certain interests, for financial gain, interest, or otherwise.

The rent and upkeep of these city hall rooms would not be any more than in a private building, if as much.

Respectfully,
J. H. WARNER

AMERICAN LEGION VIGOROUS ACTION

Urges Senators and Congressman to
Expedite Legislation Against
Lawlessness

THE CENTRALIA RESOLUTIONS

Committee Appointed to See That
Flags are Maintained on all
Schools and in Rooms

An enthusiastic meeting of the Sidney Carl Hanson Post No. 255, American Legion, was held on Friday night at Citizens State bank hall.

Two hours of interesting discussion and debate over policy marked the meeting as one of the most interesting of the local Legion post.

The secretary was ordered to forward the following resolution by telegram to U. S. Senators Kellogg and Nelson and Congressman Harold Knutson:

Brainerd, Minn., Dec. 5, 1919.

Resolved: That we the members of the Sidney Carl Hanson Post of Brainerd, Minnesota, in session assembled, regret the activities of lawless elements in our country, culminating in shooting down our comrades in Centralia, and ask that you forward any legislation designed to curb these lawless alien elements.

The following letter was ordered forwarded to Centralia, Wash., Branch of American Legion:

Dec. 5, 1919.

Secretary Grant,
Hodge Post No. 17,
Centralia, Washington.

Our Dear Comrades:
We, comrades of the Sidney Carl Hanson Post of Brainerd, Minnesota, are with you in your stand for God's Country. The shooting down of your brothers before your eyes on Armistice Day caused each of us personal sorrow and strengthened our determination to oppose lawlessness at home as actively as we opposed the enemy on foreign soil.

Please convey to the families of our dead comrades the assurance of the sympathy of our Post. We trust that they may find comfort in the thought that their dear ones fearlessly marched forth with their comrades in the presence of known danger on Armistice Day, and died as honorably at home as their brothers died overseas, intent upon upholding the principles of our common Americanism founded on equal rights and expressed through law and order.

We have at this time forwarded to our Senators and Representatives in Congress the following resolution: "Resolved: That we the members of the Sidney Carl Hanson Post of Brainerd, Minnesota, in session assembled, regret the activities of lawless elements in our country, culminating in shooting down our comrades in Centralia, and ask that you forward any legislation designed to curb these lawless, alien elements."

We assure you that the resentment resulting from the news of your grief has stirred the law-abiding elements in our country, and out of this aroused public sentiment there must follow an attitude of lawlessness that will enforce respect for our Constitution, and by so doing, prove to you and their grief-stricken relatives that they have not died in vain.

A committee of five was appointed to investigate the policy followed in our city schools in regard to maintaining the flag on all public schools and in each school room and to confer with the school board in regard to daily patriotic exercises, the committee to report at the next meeting. A committee was appointed to investigate the matter of leasing permanent quarters for the Legion.

Election of officers for the coming year was deferred until the next meeting, same to be held next week. The social committee was instructed to provide a lunch and entertainment at that meeting.

FOR CENTRALIA SOLDIERS

Memorial Services at First Congrega-
tional Church on Sunday
Evening

Talks by members of the Sidney Carl Hanson Post of Brainerd will be made in the service at the First Congregational church at 7:30 on Sunday evening. The pastor who is a member of the local Post will conduct the service.

In this service members are following the lead of 31 churches in Minneapolis, where on Sunday honor will be accorded the victims of lawlessness in Centralia. These four men crossed the seas and returned to be shot down at home Armistice Day. All members of the American Legion are cordially invited to join in honoring the memory of our dead brothers. The public is as cordially invited to take part in this service wherein they may show their respect for these men who offered their lives for their country on foreign fields and finally laid down their lives for their country in their home town.

Franz R. N. Anderson, H. B. Sherwood and Milton Mahlum have thoughtfully consented to speak on this memorial occasion.

Should Be Remembered.

Many people should remember that service, not self-service, was one great lesson of the war.

COAL NOT DIVERTED IS CLAIM MADE

The secretary of the Chamber of Commerce has received the first of the replies to the telegram sent Senators Nelson and Kellogg and Congressman Knutson in regard to the diversion of the coal supply from the head of the lakes and upper Michigan ports to points in Illinois and other points not in the district supplied by the above lake ports.

Congressman Harold Knutson wired: "Aishton, Chicago region director, advises that no coal originally intended for northwest being diverted to points south. Letter follows."

Federal Orders On Use of Coal

J. M. Hannaford, federal manager, announces these government regulations in the use of coal:

In order to conserve coal to the greatest possible extent effective at once coal dealers are directed to confine the delivery of coal as follows:

First—Army, navy or other branches of the federal government.

Second—State, county and municipal institutions and private hospitals.

Third—Public utilities, plants furnishing light, heat, water, power, transportation, manufacturers and users of newspaper paper.

Fourth—Public buildings, offices, stores, bakeries, laundries, residences, apartment buildings and other buildings housing families.

Fifth—Cold storage plants.

Sixth—Creameries, milk bottling and milk canning factories.

Seventh—Refiners of petroleum.

Eighth—Plants not included in above list only to extent necessary to protect against fire and freezing.

These instructions to apply on coal now on hand in yards and hereafter released. Dealers will not deliver coal to any consumers in any of the above classes having a supply on hand equal to one week's requirements. Agents will deliver a copy of these instructions to local newspapers, state, county and municipal authorities and to all coal dealers and to local fuel administrators that have been or hereafter may be appointed by state or city authorities.

It is understood that local coal committees and local fuel administrators where appointed will co-operate with railroad agents in checking applications for release of coal, will supervise the distribution by retail dealers, the use of power by public utilities and take such other action as in their opinion is necessary to insure the carrying out of the provisions of the order issued December first by Dr. Harry A. Garfield, United States Fuel Administrator, quoted below:

"It is necessary that coal shall be used only for essential purposes. Public utilities consuming coal should discontinue to furnish power, heat and light to non-essential industries and should only consume sufficient coal to produce enough light, power and heat to meet the actual urgent needs of the people. Advertising signs and displays of various kinds necessitating the use of coal should be curtailed and no coal should be distributed for such purposes. Pursuant to this policy I have requested the Railroad Administration in the distribution of coal now or hereafter in its possession to limit distribution to these essential and urgent uses. As far as practicable until the conditions warrant a change the distribution of coal will be limited to the first five classes of the priority list. Retail dealers who distribute coal for household requirements, heating, hotels, buildings, hospitals, etc., should take every precaution to see that coal is only delivered where it is absolutely required and then only in such limited quantities that the supply may be distributed widely and prevent suffering. The state and other local authorities can materially aid in the inspecting and supervising such distribution by retail dealers and the U. S. government will be glad to leave the supervision and control of such distribution by retail dealers entirely to any state, county or municipality which may make provision therefor. The distribution to the retail dealers must necessarily be administered by the railroad administration in pursuance of the orders already made by the United States Fuel Administration in carrying out the priorities which have been prescribed under the Lever Act."

OLD-TIME COLD CURE— DRINK HOT TEA!

Get a small package of Hamburg Brewed Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB RHEUMATISM FROM STIFF ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Liniment

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Liniment" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Liniment" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia. Limber up! Get a 30 cent bottle of old-time, honest "St. Jacobs Liniment" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

Catarrhal Deafness Cannot be Cured.
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c. P. J. Cheney & Co.,

True Art.

With frowning brows a famous artist was transferring to canvas the beautiful highland scene before him, and furiously wishing that the spectator who was breathing down the back of his neck would go away. But that spectator was a "sticker." "Man," he said presently, "did ye never think the study photograph?" "No," snapped the artist, as he went on painting. "I wonder at that now," said the spectator. "It's a hantle quicker as well's bein' mair like the place."

recalls Roman Conquest.

The sale is announced of the ancient Caerwent, Monmouthshire, England, which is mentioned in Domesday Book. This town (Benta Silurum) was the headquarters of a powerful and warlike tribe called Silures, who occupied "approximately the counties of Monmouth, Brecon and Glamorgan." In spite of the fierce resistance offered by them, about 48 A. D., to the Roman conquest, their town in time became a Roman city, not unlike Rochester, but smaller.

The old walls and gateways still survive, and the many excavations carried out have discovered Roman relics of much interest—a town hall and market square, a temple, baths, frescoed panels, and also water pipes, said to have carried drinking water from the hills.

Shop Talk.

A school teacher was discussing the way she had been changed from one building to another. "The manual training supervisor was with the superintendent when I went in to see where he was going to send me," she said, "and I just asked them if I was to sweep shavings up in that department."

Her listeners smiled; they smiled again when she continued: "Then the superintendent told me to go to the high school and sweep shavings up in the history department there."

"Why," mildly put in one of them, "are they blockheads down there?"

Plant's Name Significant.

The spelling of Mangel-Wurzel is a question which appears capable of being settled in different ways. What is really interesting about the word is the fact that its name was altered from Runkelruben by the German people. At a time of famine Runkelruben saved the people from starvation, and was for that reason given the new name of Mangel-Wurzel, literally "famine root." The plant stood the Germans in good stead during the latter days of the recent war, thus once more earning its sobriquet, by which it is known everywhere in England.—Christian Science Monitor.

Counting the Cost.

"How much do you pay for beef steak?"
"Not much. After the salesman gets through charging for the suet and the bone the cost of the edible portion is scarcely worth mentioning."

Valuable.

"Guess I'll have to go without any sugar at dinner."
"Couldn't you get any?"
"It isn't that. I have quite a little, but I've lost the key to my safe deposit box."

Some Kickers.
"Some men pride themselves on being great kickers," remarked the Observer of Events and Things, "and they never will concede that the mules are their superiors."

Amendment to Articles of Incorporation of The Haydon Company.

We, the undersigned, president and secretary of The Haydon Company, do hereby certify that at a special meeting of the stockholders of said company, called and held at Brainerd, Minnesota, on November 25th, 1919, for the expressly stated purpose of amending its articles of incorporation as to increasing its capital stock by the issuance of \$25,000 par value of preferred stock there being present or represented at said meeting stockholders owning 820 shares out of a total issue of 870 shares of the capital stock of said corporation; that 830 shares of stock were voted in favor of the adoption of the following resolution and no stockholders were opposed thereto, to-wit:

Resolved, That Section 5 of the Articles of Incorporation of this Company be amended to read as follows: Section 5. The amount of the capital stock of this corporation shall be \$125,000, divided into 1,000 shares of common stock of \$100 each, par value, and 250 shares of preferred stock of \$100 each, par value, and subscriptions to common stock may be paid as called for by its Board of Directors and may be paid in cash, services or property at its fair value as may be determined by said Board, and the determination of the Board of Directors as to the fair value of the property or services taken in payment for capital stock shall be binding and conclusive, and subscriptions to preferred stock shall be paid only in cash and as called for by said Board.

The holders of the preferred stock shall not be entitled to vote at any stockholders' meeting but they may attend the same and shall receive in the same manner the same notices of meetings as the holders of the common stock.

The holders of the preferred stock shall be entitled to receive when and as declared, from the surplus or net profits of the corporation, yearly dividends at the rate of seven per cent per annum, and no more, payable annually on dates to be fixed by the by-laws. The dividends on the preferred stock shall be cumulative and shall be payable before any dividend on the common stock shall be paid or set apart, so that, if in any year dividends amounting to seven per cent shall not have been drawn, the deficiency shall be payable before any dividend shall be paid upon or set apart for the common stock.

Whenever all cumulative dividends on preferred stock for all previous years shall have been declared and shall have become payable, and the company shall have paid such cumulative dividends for previous years or shall have set aside from its surplus or net profits a sum sufficient for the payment thereof, the Board of Directors may declare dividends on the common stock, payable then or thereafter out of any remaining surplus or net profits.

In the event of any liquidation or dissolution or winding up of the corporation the holders of the preferred stock shall be entitled to be paid in full both the par amount of their shares and the unpaid dividends accrued thereon, before any amount shall be paid to the holders of the common stock; and after the payment to the holders of the preferred stock of its par value and the unpaid accrued dividends thereon, the remaining assets and funds shall be divided and paid to the holders of the common stock according to their respective shares.

Any part of or all the issued preferred stock may be called in and paid for upon a majority vote of the Board of Directors by giving to the holders thereof thirty days' notice in writing, at \$105 per share and any accumulated and accrued dividends. In Witness Whereof, We have hereunto executed this certificate as and for the act and deed of said corporation, and have attached thereto the corporate seal of said corporation at Brainerd, Minnesota, this 1st day of December, 1919.

CREATED DEMAND FOR APPLES

How the Distribution of Free Samples Won Big Trade for Wise Growers of Fruit.

Have you ever noticed when you drive into town with a load of apples to peddle about, or dispose of to grocers, what a hungry look that man standing upon the street nearby gives you as you pull up to the curb, and especially if you have extra fine fruits displayed in nice crates? We did, and we took a valuable lesson from the hungry look. The whole world is hungry for good apples to eat, and all the time. We used to feel sorry when we shied glances at him with the hungry look, but our apples were all weighed up in measures ready to deliver, and we must not start in handing out, or we would run short. We caught a trick one day when packing in our orchard for the market. Quite a few specimens were always found with little defects, over-ripe or bruised just a little. These apples were more than we could use up at home, and often went to waste. Next day when we took our load of apples to town, a half-bushel basket of these specimens, mellowed for ready eating, went under the seat, and everywhere we met that hungry look with a ripe apple.

And it worked better than we had suspected, for the next time we went to town with apples that hungry look met us with an order for some of our apples. Then it went still further. The grocers where we delivered apples did not find out, and we did not tell them either, that we were handing out ripe samples. It increased their trade and thereby increased the demand for more of our apples.—George Welmar Brown in Farm and Fireside.

PLEADS FOR CORDIAL GRASP

Philadelphia Newspaper Writer Voices Objection to Some Common Varieties of the Handshake.

How do you shake hands? I heard a man express himself very forcibly on the subject the other day. "If there's anything drives me wild," he said, "it's to have a woman lay her hand in mine as though it were a drink of milk and water, or a soggy pancake. If she doesn't want to shake hands, then she ought to just plain refuse. But if she does want to, why then, let

As one Minnesotan to Another, John Edstrom tells of his Prosperity in Western Canada

"I am farming 640 acres, all under cultivation expecting 140 acres of pasture. I was one of the first settlers in this district, and have witnessed the growth and development of this great wheat producing area. Our cattle, too, thrive remarkably well on the native grasses, and I consider we have a country well adapted for mixed farming; but on account of the heavy yields of grain that can be reaped from the Virgin soil at such a small expense, most farmers in this part have never yet gone in for mixed farming. I came here from Minnesota, U. S. A., and am well pleased with conditions as far as farming is concerned, as I figure I have made good progress from a financial point of view. My boys have grown to manhood, and I am glad to say there are many opportunities for them to get farms of their own as soon as they desire, at prices that will assure them owning their own farms and homes at an early stage of their career."
